

# CRG DP1

## Electric Drill Pump

### DESCRIPTION

**CRG DP1 Drill Pump** is a light weight electrically operated piston pump.

**CRG DP1** is suitable for the high pressure injection of polyurethane and epoxy resins.

**CRG DP1** is light weight, portable, easy to operate and maintain making it ideal for both residential and commercial applications.

### BENEFITS

- Single speed motor
- light weight
- Portable
- Simple operation

### USES

- High pressure polyurethane injection
- High pressure epoxy injection
- Crack repair
- Back grouting

### TECHNICAL DATA

Drive	650W fixed speed
Operating pressure	Max: 700kgfcm <sup>2</sup> Nominal: 180kgfcm <sup>2</sup>
Flow rate	800ml/min
Weight	7Kg

### OPERATION

Remove all traces of storage oil and prime the pump with resin before starting operations

Always ensure the pump is cleaned after operation with Sealtite cleaner until all resin residue has been removed. Charge with engine oil for storage.

### SAFETY

Only use as directed with the correct protective equipment. Only operate when connected to an RCD protected power supply.
